

B. R. N. A. Annual Medallion Program

The Blue Ridge Numismatic Association issues medallions each year. The medallions are 27 mm in diameter, and minted by the Patrick Mint, Santa Rosa, CA. The metal that the medallions are struck in is determined by the year in which they are struck. In odd numbered years bronze is used and even number years either gold or silver plate finish. The mintage is strictly limited to 1,000 pieces each year. The obverse design is selected from an inventory of stock dies made available by the Patrick Mint. The reverse design advertises the August B.R.N.A. convention and the BRNA website.

The medallions are free and available on a first come basis, at the F.U.N. convention in January and the B.R.N.A. convention in August.
